## Parent Teacher Conferences

I'm excited to see that many have signed up for parent teacher conferences. I look forward to meeting with you virtually or in person! Thanks for making time. I know your schedules are very busy.

## Seesaw

I would like to start posting Seesaw videos for students who miss multiple consecutive days. I will still email work home as I have been doing. Don't hesitate to reach out if you have questions and please scale the work down to what your child can do. Rest is most important.

## Spelling

This week we'll focus our study on number words. During the test on Friday I will select 25 words from the list.

## Math

No Fun Facts for the week of Oct. 26-30. Be ready for the x4's Monday, Nov. 2. You can use the links on the Math Resource section of the class website. There is also a handy times table in the agenda.

## Koats for Kids Drive

The Grade 5s are running an all-school coat drive for the month of November! We will be collecting gently-used kids winter gear including coats, ski-pants, boots, mittens/gloves, scarves, and toques. If you have any of these items that you no longer use, please send them to school with your child. Thanks for sharing the warmth!

## Science Project

The students have taken home instructions for a science project today. They were given the choice of either drawing up a blueprint for a playground featuring all six simple machines or creating a compound machine to accomplish a task, using 4-6 simple machines. These projects can be brought in during the week of November 23. Each child will present their work and then we'll display them for the rest of the school to enjoy before your children take them home again the week of Dec. 7. Thanks in advance for supporting them through this. I feel it's very important to have a balance of assessment types. This will count as their final mark in our Simple Machines science unit. There will be no test to study for.
