Splash Pad!

Could you please send a modest swimsuit or clothes that can get wet for next week

Wednesday! We'll take the grade 5's to the splash pad Wednesday, Thursday or Friday depending on the weather and schedules. **Swimsuit and towel please!**

Weather

Our next science unit is weather. Through our study we'll discuss and find answers to many questions like: What factors affect weather conditions? How do we protect ourselves against the weather? What was weather like when God first created the Earth? Are natural disasters the result of the fall? How does the water cycle play into weather?

Bible

We've identified several genres in the Bible, including law, history, wisdom, prophecy, biography, and letters. We continue to apply the study skills learned in unit 2 as we look at Bible passages from different genres and seek to learn more about God and his big story. We will be completing our grade 5 curriculum in the next couple weeks.

Track and Field Day!

I am so excited for our annual track and field day! If the weather allows, we will spend pretty much the whole day outside Thursday, June 4 at the River East track. We will be back to the building for lunch only. We have booked a portable toilet which will be positioned near the track. The girls will spend the morning on the track and then they'll travel around to the field events in the afternoon. The boys will do the opposite. Each grade level gender group travels through the events together regardless of if they are signed up to do that event or not.. We have water refill stations at the track, but the students should come with a **water bottle, sunscreen, a hat, and a towel** for sitting on the grass. Good outdoor running shoes are extremely important. For our practices and track and field day.

Bible Memory Verses

1 Corinthians 13:7

... (previous verses) It always protects. It always trusts. It always hopes. It never gives up.
